The whole affair was arranged beforehand. After Salisbury's speech on Friday Woiseley sent in his resignation, but at a consultation held between Stamhope, Wolseley and the Duke of Cambridge it was arranged that affairs should be smoothed over. The Duke of Cambridge, who holds his post solely because of his connection with the royal family, is believed to be greatly alarmed over the prospect of a reforming campaign conducted by a man so eminent and popular as Wolseley.

WANT HENDERSON.

Last night a number of friends of Gen. John B. Henderson, led by Dr. Thompson of Jefferson City, met and decided to telegraph him and ask him to attend the convention. They would not hear of his refusal to go before the convention for one of the places as Delegate-at-Large. In compliance with their request, Mr. M. G. Reynolds telegraphed Gen. Henderson to come to the convention, but he did not put in an appearance this morning. E. S. Rowse had a slight attack of lumbago, arrived last night from Higginsville. He at once gave out that he was not a candidate for Delegate, but was simply an advocate of harmony. There are no two men so wide apart as Filley and Rowse. Two years ago the latter described the former on the convention floor as "a commercial politician." Both are now preaching harmony. Filley arrived on last evening's train attended by Secretary Ford Smith of the City Committee. Charley Schweickhardt and Tom Martin. He intended to be on the field a day earlier, but was prevented by slokness. On his arrival he began a canvass of the situation and apparently had little or no preference on disputed points.

FILLEY TALKS.

When asked whether be tavored nominating the full State ticket at once or postponing it until later in the campaign, he said: "I don't see that it will make much difference. I don't think the city cares whether the full ticket is nominated now or the convention adjourns to meet at a later date."

The St. Louis leader met with a tepid reception from some of the country delegates. The sentiments of the farmer politicians from the interior on the St. Louis rows were pretty trutfully displayed in a conversation between two Central Committeemen and one of the aspirants for election as delegate-atlarge. One remarked that Filley said he wanted nothing but what was fair, when another said in that event Filley would want to be the judge of fairness. T

themselves with the St. Louis delegation to ascertain whether they would En for delegate-at-large as evidence of harmony, suggesting that Filley would be taken care of either at the selection of delegates if St. Louis was given two, possibly given the Governorship either at the selection of delegates if St. Louis was given two, possibly given the Governorship nomination, where he could be of more use to the party. The answers snowed that Filiey, through his shrewd management of the primaries, owned the St. Louis delegation, with a half-dozen exceptions, and his pleasure would guide their action. They had no suggestions to make on this subject, for reasons that appear below. Sixty-seven of the St. Louis delegation to the State Convention arrived this morning. With them came Delegate Samuel Hays, Recorder Wm. A. Hobbs, Circuit Attorney Glover, George Bain, B. R. Bonner and Charlton H. Tandy as lookers on. Before coming here the Ninth District squad of the St. Louis delegation arranged their programme. At a secret caucus held last Friday night as Behweickhardt's Forest Park Restaurant, at which every member was pledged to keep mum, it was sgreed to send D. M. Houser to Chicago as one of the Ninth District delegates. No mention was made of the disposition of the other place, as it was generally understood that the boys might have to take care of "THE OLD MAN." should he be left out in the cold by the State Convention. The confidence of the St. Louisans this morning, of getting a place on the delegation-at-large for 'the old man,' even though St. Louis was only given one nomination, was strong. The delegates from the Southwest proposed that in addition to the place as delegate-at-large, Filley should accept the nomination for Governor and organize the State. When this proposition was made to Filley he evidently appreciated the proposition of the compliment and said in reply that if tendered the honor he would not decline it.

Since the arrival of the delegations last

ply that if tendered the honor he would not decline it.

ONE OF THE TICKETS.

Since the arrival of the delegations last night and this morning the rest of the candidates for State offices has filled up rapidly. The names mentioned are as follows: For Governor—S. M. Breckenridge of St. Louis, W. H. Wade of Springfield, W. A. Warner of Kansas City, Gen, Odin Guitar, Chauncey I. Filley and E. F. Kimball of Nevada. Milo Blair of Pettis and F. M. Posegate of St. Joe are the only names mentioned for the Licutenant-Governorship. Judge Shirk of Sedalla and Henry Smith of Kansas City are suggested for Attorney-General, Dr. C. A. Thompson of Cole for Treasurer and J. A. Arlinthrout for Auditor. None of the candidates or their friends are pushing for an early convention as either a belp or an injury to their prespective candidacies.

The district delegates to the Chicago Con-

as either a help or an injury to their prospective candidacies.

The district delegates to the Chicago Convention are nearly all in attendance on the
convention to-day. They represent the sentimens of the Republicans of the State on the
Presidential preferences and prohibition. The
majority of the delegates are Blaine men. In
the western part of the State the Blaine feeling
is particularly strong. In the north and contral sentiment is mixed; one of the delegates
is an avowed Hawley man and the other a
Sherman man. The counties of the Fourtcenth
District have instructed for Greeham, and the
leading candidates of the southwest are pronounced Greeham men.

The Springfield District is the only one
which has instructed for Blaine. The St.
Louisms claim to have no presidential
preference, but they are Blaine men nevertheless.

The Democratic primaries to select dele-gates to the Sedalia Convention on Thursday passed off more quietly than had been expected in the wards where fights had been advertised to occur. The fights in the Twenty-first and Twenty-second Wards are described elsewhere.

In the Twenty-second Wards are described elsewhere.

In the Twenty-fourth ward Committeeman Michael Sullivan had an easier time than he and his friends expected in downing the opposition, which was largely composed of Thomas P. Morris. Mr. Sullivan made little fight, however, while the opposition had two clubs, several committees, and the wagon which had been fitted up to earry visiting ball clubs to the old Maroon Park was running all afternoon, earrying the Morrisites to the polls. The latter had complained in previous unsuccessful fights against Committeeman Sullivan, that they could not get the Committeeman to give them a representation among the Judges and Clerks. They were given what they asked this time so completely, however, that even Mr. Morris was satisfied, a thing which men who have lived in the ward for years never knew to happen before.

As a result, two of the Sullivan delegates were elected, Philip C. Taylor and Hugh McSkimming, while the opposition succeeded in getting in Maurice Maloney. The fight was the most determined ever made on Sullivan, and he was congratulated last night on all hands over the endorsement given him without exertion on his part.

work in the Twenty-second. Pat Cassidy, Central Committeeman, called the massmeeting to order at Schnalder's Garden. Cassidy is Francis' friend. He nominated C. C. Rainwater for Chairman. The meeting wanted William Keating. A division was suggested, and the biggest portion of the crowd went to the Keating side. Then, it is claimed Mr. Cassidy adjourned the meeting and went away with the Francis crowd. Mr. Keating called the meeting to order and nominated as delegates to Sedalia William Keating, John C. Fieming and George C. Stroup.

After they had adjourned Mr. Cassidy's crowd returned and nominated as delegates C. C. Rainwater, J. C. Fieming and A. J. Judge. The two delegations will fight it out at the meeting of the Democratic City Central Committee to-night.

C. C. Rainwater said this morning: "There is no doubt but our delegation is the only legal one from the Twenty-first Ward. Only the Central Committee the right to call the meeting and honce the meeting of Keating and Stroup was lilegal. If they had waited until the meeting had organized by the election of a chairman they might have elected their delegation iegally, but the meeting did not organize under the call until later when they had elected their delegation and had gone away."

A politician of some prominence said: "The meeting could be called to order by the Central Committeeman but it could not be adjourned by him. There's where he made the mistake. Had he been a shrewd politician he would not have needed to adjourned by him. There's where he made the mistake. Had he been a shrewd politician he would not have needed to adjourn. He was foolish to say he couldn't decide while he was Chairman. If he had determined to elect one delegation or one chairman why didn't he declare them elected and

Yesterday morning the supporters of Councilman Patrick O'Malley and J. B. O'Meara for delegates to the National Democratic Convention from the Eighth District were con-fident of their election. To-day they are not so sure of O'Malley, who, from the returns of the delegates to from the returns of the delegates to the Sedalia Convention elected yesterday does not appear to have been able to secure the selection of his friends. O'Meara, it is conceded to seed the selection of his friends. O'Meara, it is conceded to have fitneen votes pledged him and may be able to get more. The other votes are divided between Dan Murphy, Breck Jones and Fatrick Degnan. Jones is a candidate for delegate to Sedalia and will probably be fortunate if he gets so far.

There is also a doubt about the National Convention delegates in the Ninth District. George W. Allen and Charles Knapp were said years terday to be positively the selections but this morning there is a doubt as to Knapp. The research for his list in the fact that this is the

In this pushing age a good time-piece is in dispensable to comfort and success. But while accurate time-keeping is more essential, beauty is extremely desirable, and no one of the throngs of ladies and gentlemen who daily visit the magnificent diamond disat Fourth and Locust streets, falls to admire

watches.

The designs are rarely beautiful and artistic, and as for the watches it is needless to speak of them. The movements of this firm have a reputation throughout the West for perfection of make and absolute accuracy of time keeping. Every watch is guaranteed.

There is another thing to be said, and this is that never have fine watches been offered at such sacrifice prices.

Some exquisite designs are displayed and at marvelously low prices. One lovely watch has a scroll of diamonds on the front in aspray of daisies of raised gold, with a dainty border around the case which may be bought for only \$120. Another dainty satin-finished, red-gold watch is ornamented with a superb star with a ruby center and diamond points which is marked at only \$75. Another very rich polished gold watch has a design in diamonds of a double triangle entwined with a fine diamond in the center, and still another has a butterfly of raised red gold with a rare Oriental opal for body and wings, set with diamonds, rubles and sapphires. These are ladies watches, and a superb design for a gentleman, a Louis XIV. style in flowered work of raised colored gold and raised leaf work surrounding a brillians diamond, and further ornamented with a gold hummingbird. This beautiful watch is only \$210. These are only samples of the rarely fine watches which are shown.

tained To-Day. Trading in mining stocks was reasonably ctive to-day, and prices generally firm.

the decline in Frisco continued, the stock being offered on the street at \$1.22½, with few takers, but 500 shares being sold at that figure. A slightrevival took place later, with some heavy transactions, 100 shares bringing \$1.25, 500 \$1.27½, 500 \$1.23½, and more than \$2,000 shares sold at \$1.30, the last transfer being one of 200 shares at \$1.32½. Letters from Supt. Smith were received at the company's office, but they contained no late news. pany's office, but they contained no late news. A private telegram was received from the mine stating that the pinch was regarded as only local, and that the quality of the ore was showing some improvement.

A telegram was received from the Central Silver to the effect that a three-foot vein of very rich ore had been struck, which seemed to be most promising. No particulars were given, but the report gave rise to a strong demand for the stock. Five hundred shares brought 6614, 1,600, 6742; 2,000, 684; 500, 70, and 1,000, 714, the closing quotation.

A letter was received from the Cariboo stating that work on the mill was progressing rapidly, and that before long forty atamps would be dropping. The stock opened strong at 484, 1,000 shares bringing that figure, and steadily rose, 500 shares selling at 50 and 800 at 514.

San Pedro was in good demand and the price firm. Opening with a sale of 200 shares at 45, it advanced to 4745, at which 1,000 shares were sold, and closed at 50, 200 shares bring-treather force.

Pat Murphy was rather weak, opening with a 500-share transfer at 78%, dropping to 77½, at which 1,200 shares changed hands, and closing with a sale of 300 shares at 78%. Concepcion was in good demand, with little stock offered for sale; 550 shares sold at 23½ and 300 at 23½, the market closing at 25 bid.

Silver Age was 40 bid; 300 Mascotte brought 71¼, and 500 72½; 500 I. X. L. soid at 45¼; Jumbo was 22½ bid; 500 Golden Era brought 51.63¼; 22 was offered for Rena; 1,000 West Granite sold at 60, and 500 at 61½; 300 Black Oak brought 75; Hope was 85.60 bid, offerred at \$8.80; Anderson was offered at \$1.20.

The weekly report of the Silver Age, which was received to day, states that last week a carload of second-class ore was sold, which netted \$1,014. One carload of first-class and two of second-class ere will be shipped this week. The wagon road and railroad switch are both completed. Another streak of ore was discovered in the lower west level.

News has been received from the Yese mins of Sonora, Mexico, that the vein is looking excellently, and the prospects for the future are most promising. The majority of the stock in this mine is held by John B. Lionberger and Charles Speek, who have for some time been developing the property. No stock has yet been placed on the market.

The Committee on Constitution and By-laws for the projected Mining Exchange held a meeting this afternoon. The matter of rules and regulations was discussed and it is expected that the committee will be able to make at least a partial report to morrow. the Executive Committee of the Union Labor party to-day it was found that twenty-eight states were represented. Last year's business was settled up. At noon the National Convention was called to order in the Odeon, when the following nominations for temporary officers, made by the Executive Committee, were ratified: Temporary Chairman, S. F. It is clear that the chief difficulty before the convention adjourned until p. m.

It is clear that the chief difficulty before the convention will be the propers to ward merging into the new party. The drift of sentiment as developed in the speeches which prolonged the session until after midnight, was in favor of holding fast to the mame and leading principles of the organization. The United Labor faction shows more anxiety to combine, but their cardinal principle of land tax is repugnant to the greater portion of the Union Labor men. The question of a union of the two wings will perhaps be the first to engage both conventions and it is not likely that a platform can be created to day.

Something of a sensation was caused by the offering of a resolution by Harry Gilliard of the Labor Age, requesting Dr. McGlynn to address the convention. A storm of opposition was raised by delegates, and the chair suppressed the trouble by ruining the resolution out of order. Mr. Gilliard, is devoted to the United Labor ideas.

The large hotels have had all their rooms engaged for some time, and a bureau of information has been formed to take care of persons who go to the city unprovided for as to accommodations. It has made a complete canvass of the city and prepared a list of the minor hotels, boarding houses and houses whose holders will be willing to entertain visitors during the convention. At the head of the bureau is John G. Shelton, from whom information can be obtained on the subject of accommodation by addressing him at the bureau's office, 506 Olive street, St. Louis.

The convention was called to order at 12 o'clock by Chairman Bingham. A colored man, named Stevens, was temporary chairman, and made a long speech, urging the nomination of a full ticket, and eulogized Samuel Noble. He denounced the Federal office-holders in Alabama during the terms of Hayes, Garfield and Arthur as political rascals, acting with the Democrates in the State to keep the negro out of his political rights. A rise of over five inches is shown at Beck's thing which has saved the bottom farms north in the Sny levee, which gave a temporary out-let for the mighty volume of water which is coming with an irresistible force this way. All stock has been driven from the low bottom lands to the higher bluffs. So far no lives have been lost.

The water is now in an unbroken sheet from bluff to bluff, except in the extreme southwest portion of the bottom.

BUSINESS ON THE KEOKUK LINE is wholly suspended, as an open lake of water reaches from St. Peter to beyond Old Monroe. No accurate estimate can be made at this hour of the damage which may be done within twenty-four hours, unless there be oil poured upon the troubled waters. Last fall there was a large acreage of wheat sown on these low lands, and owing to the favorable spring season for corn-planting, a very large acreage of corn was planted. All of these crops will be wholly destroyed if the rise does not abate. The men who will suffer most are the renters, as all these bottom lands are owned by wealthy men, among whom is George Meyers of St. Louis and others. Should the local rain, which set in here at noon, continue until midnight, the Cuiver River will pour into the Mississippi a yolume of water inundating the entire Mississippi bottom from Monree to St. Peter's.

on Farm Sold at a Good Price

The secrets of another immense transaction in suburban land became such common property this forencon that the Post-Disparch can no longer, in fastice to its readers, withhold the publication of the facts.

Last Friday it became known that the Benton farm had been purchased, at least the property was then tied up in a way that would Pomeroy, one of the two sisters who, by the

more than all of Mr. Benton's personal and real property to satisfy it, and the last vestige of it was sold as stated last Friday, the blooded stock and other personal property which Mr. Benton had accumulated on his farm having been sold on the premises and at Clayton by the Sheriff of St. Louis County about four years ago.

In talking over these matters with one of the veteran real estate agents on Saturcay last, he stated that if he had the money Rev Morrison, who bought the Benton farm when it was sold under Commissioner's sale at Clayton, would have been compelled to pay at least \$100,000 for it, whereas the reverend gentleman got it for about \$175,000\$. In addition to this the agent said he had been trying to sell the Benton farm, and thought he had it sold until that morning, but his parties were too slow, and he had lost the prize. His disappointment had only dawned upon him a few minutes previous to this conversation, and the party who prevented the sale was Rev. W. F. Morrison. The reverend gentleman's visit was a very brief one, but long enough to let the agent know that it was time lost for him to proceed any further in attempting to sell the Benton farm, as complications had arisen which obligated him to convey the valuable tract to other parties. Following close upon these incidents Col. Thomas F. Scott announced to a POST-DISPATCH reporter that there was an immense boom in St. Louis real estate, there was a great awakening, property was being bought and sold in this city as it never had been before, and the fact was that some gigantic negotiations were then peading which when announced in the newspapers would astonish the natives. He could not be induced at that time to divulge the secret. He was left in this happy frame of mind, he requesting the reperter to go down and look at the Tyler tract where hundreds of men and teams were then at work grading. However, the secret was kept until this morning when it was learned from an entirely new source that the place had been sold. The tract has been e

The court says: 'Much as I regret that this case has to be re-tried, I feel it my duty to sustain the motion for a new trial. In the courts trials should not only be fair and impartial, but they should be so conducted as to give no ground for believing them otherwise. It is true that the affidavit of the detendant is very full and shows that he had no connection whatever by succession, or otherwise than by regular election. The little prefix "re" is there for but one purpose, and has no other force or effect except to show, as it unmistakably does, the intention of those who made and those who adopted the Constitution.

to compose it. The Council is possessed of a committee of this nature, but the House is not, and as a consequence the discussion of questions involving important law-making is awarded in turns to committees whose normal duties are quite foreign to the subject thus thrust upon them. Thus the Water-Gas charter forfeiture ordinance was, after some deliberation, given over to the Committee on Ways and Means and the pool-room bill to the Public Improvements Committee, while the consideration as such a committee would be, with the pos-sible exception of that of the railroads, the most important by far of any now in exist-

The Railroad Committee of the House w when the propriety of permitting the Cable Western road to retain its second track fro Western road to retain its second track from the "Pompeil" Amphitheater to the St. Louis station would be discussed. It is thought that the committee room will be thronged this afternoon with commuters, desirous to unfold their several tales of woe, for it is the one grand chance of the suburbanites to compel the line to come to terms, and it is not likely that they will forego their opportunities. It will be remembered that the track referred to was laid when the Assembly was not in session, by permission of Mayor Francis, but the ordinance necessary to legalize this occupation of public streets died when House and Council last adjourned. Manager Tredway and associates cannot understand why war should be waged upon them when but for the Oable & Western rapid transit through St. Louis streets might still be an unsolved problem, but the commuters are firm. They are dissatisfied with the fare, insisting that a clique of wealthy people are interested in maintaining high rates that their ornate mansions may not be disfigured by the proximity of humbler homes, which would no doubt be the case were the charges reduced. The commuters are only in the cable & Western shall run trains to suit the cable & Western shall run trains to suit the cable & Western shall run trains to suit the cable and track has given St. Louis an authority which the complaining citizens do not care to waive, and unless the Cable & Western is willing to make certain concessions there will be a litter opposition to the ordinance legalizing its contested track.

The Board of Public Improvements-spent a mooted question of paving with pine blocks, and are as far from reaching a conclusion as ever. The whole subject of pine-wood paving is receiving a thorough overhauling, the especial topic of discussion this morning being the reconstruction of Morgan street, from Compton to Grand avenue, the lowest bidder being Henry Ruckert, who asks \$28,013; the reconstruction of Easton avenue, from Garrison to Grand, lowest bidder Allen & Vieths, \$34,008.09; Clark avenue, from Twenty-first street to Jefferson avenue, lowest bidder Fred Skrainka, \$25,600.70; Easton avenue, from Leffingwell to Garrison avenue, lowest bidder Allen & Veiths, \$30,874.90.

The awards, as well known, have been hangopinion that pine wood blocks as they have been laid are not calculated to answer the purpose, but he also holds that if the property owners insist on this kind of pavement, knowing all the circumstances, their wishes should be recognized. The property owners in the specific cases referred to are said to be clamoring for wood, and wood they will doubtless have. The Fresident of the board in submitting his views at this morning's meeting, reflected rather severely on the character of the work permitted by the Street Department in the past in this matter of pine blocks, saying the wood had been imperfect, the treatment imperfect and the inspection not much better, and that it was quite possible to have good wooden pavements laid with pine blocks if the proper precautions were taken in the future. It is not unlikely that the upshot of the controversy will be the abandonment of the wood blocks where travel is at all heavy, and in any event the substitution of gum for pine wood paving.

Come Into the Fold, Se Happy at Little

The moon and the stars are shining On river and hill and dale. When the spring-time sun declining, Sheds light on the lonely vale. But cheerfully lamps are burning On many a scene of mirth; As the tired man, returning, Sees the pleasantest spot on earth.

And all who go to McNichol, Or come, as we say, "in the fold," Will fear not the harvest's sickle, Or the blight and the care of old. This lasts while some belongings Pass sulck from the hands of man, Here case all your bitter longings By this wise installment plan.

Tes, for you have only to choose what you want and pay for it by the week, if you like, the easiest way in the world, and make a lovely home you can be proud of forever. NEW YORK, May 15 .- The Trunk Line Asso. obliged to make another big reduction in freight rates. Following so soon after the drop in the rates for the transportation of live stock, it is found to create much talk and comment. The latest out has been made on railern points. Heretofore, these rates for the six different classes of freight have been as follows: To Chicago and Milwaukee, 54,47,87, land and Detroit, 49, 42, 88, 24, 20 and 17 nts per 100 pounds. inst year had all they could do carrying, iron ore being a great boon. Great railroad construction made a market for all this iron ore, and the vessels were not only kept busy but were kept busy at high rates. This practically eliminated competition with the rail routes. There was so much traffic that rates did not have to be cut. This year, however, there is a decided change in this regard. The iron ore traffic has "petered out," and the lake vessels are obliged either to do no business at all or compete with the rail routes for all manner of business. Freight that does not have to be shipped speedily can be carried as well by the vessels as by the railroads, and, of course, as cheaply. The vessels and of course, as cheaply. NEW HAVEN, Conn., May 15.—Morris F. Tyler, attorney for the Continental Construction & Improvement Co., builder of the Hoosac Tunnel, was yesterday served with papers ordering him to appear before the United States
District Court at Hartford, on June 4, and
show cause why an injunction should not be
granted and a receiver appointed to wind up
its affairs. After the tunnel was finished a
trust was formed and the stock of the compauy placed in the hands of seven of the directors who were to act as trustees. Some of
the stockholders, who hold about \$230,000
worth of stock, capital \$500,000, have become
dissatished, claiming a manipuiation of the
concern by the Fitchburg road, and seek to
wind up the company, which has done nothing since the tunnel was finished.

defendant directors are S. F. White, Kountz
& Co., and other New York capitalists.

officials to the matter and to have induced them to do some figuring on the matter. It is understood that they are seriously considering putting on a vestibule train. In view of the fact that the roads running both east and west out of Chicago have adopted them and that St. Louis has not one it is regarded as time that St. Louis were getting the same facilities on one side at least. The interests of St. Louis demand that it be placed on an equality with other Western oities in this matter and just at this time when the tide of travel is turning East, the railway which first puts on a through limited vesti-

POLICE VS. STUDENTS.

CAMBRIDGE, Mass., May 15.—The District Police Court is worked over hours hearing its and imposing fines upon Harvard tudents. Three weeks ago the rooms of the Harvard Polo Club were raided by the police, and a quantity of Bass are and "nard stuff" captured. Six students belonging to some of the best families in the country were arrested at the time. "All of them were intoxicated. They were fined for of unkenness. Then a complaint was made against the club for selling liquors without a license. The boys contend that they have never kept liquors for sale, but as the fact that they had such beverages in the club-room would provoke the anger of the faculty, nearly all the members of the club have been before the court and paid fines of 50 and costs. I setterday five students, members of the Polo Club, came up, paid their fines and went away as quietly as possible. In this way the members of the club have paid nearly \$2,000 to the city treasury of Cambridge. They are getting tired of it, and were it not for the scandal which a trial would provoke they would stand up and fight the police in the courts, feeling sure they would win before any jury.

The conduct of the police in raiding the club-room and prosecuting the members has made them swidely disliked by the students, who take every occasion they can to show their contempt. Sunday night H. P. Stong, a Harvard junior living at Washington, D. C., was arrested for throwing empty beer bottles from his window. Yesterday he pleaded guilty and paid a fine of \$5 and costs. The feeling against the police is increasing every day, and if a compromise is not soon effected there will, be a fight.

Your, May 15.—Among the Baptists ere seems to be the spirit working toward aiding the churches of the South and North, hich were separated by the events of the late war. The preliminary steps taken at the great Methodist Convention in this city to the ne end are viewed with great interest by the saptist ministers and much talked of among themselves abothe regular weekly meeting yesterday. Many of the ministers issue this city to-day to attend the May anniversary fete of the Laphist Church, North, held in Washington May 15—22, both dates inclusive. Some have aiready gons. To-morrow a delegation from Boston, en route for Washington, arrives on the steamer Pligrim. Of both delegations many will visit the Baptist Convention of the South which opened in Richmond last Wednesday. One of the ministers stated that the conventions were arranged in neighboring cities on dates overlapping each other, with a view of bringing the bran ches nearer together and to a final union. The delegates will visit back and forth between the two conventions, and promote the growing fraternal feeling.

SPORTING MATTERS.

OSSIP ABOUT THE STARTERS IN THE BROOKLYN HANDICAP.

NEW YORK, May 15.—Everything appear promising for fine racing at the Brookly Jockey Club's course up to 2:30 yesterday, who a bank of fog rolled in from the sea and turned

Thomas, Thompson, Pryor, Jones, Brown, Feakes and Stoops; Jockeys Garrison, and Dohohue, and a score of lighter weights. The main interest centered in the Brooklyn handicap on the result of which event at least \$100,000 is aiready pending. Several who had placed their money on the supposed dark horse, Saxony, turned pale when they heard that he would not start. It was reported that he would not start it was reported that he had gone lame and stiff.

Turfmen who are superstitious shrugged their shoulders when they learned that the number announced to start in the handicap was threen, with The Bard who was sick unto death last summer, at the head of the list, and Grover Cleveland, who is reported to be a little stiff, at the tail. But for all that it will be a great race. Hanover will undoubtedly be the favorite, but the wisest heads at the track were puzzled when asked which horse was likely to win. The trainer of the greatest racing stable in America remarked to a friend: "Better let the Bog race alone." Patriarch Sim. Hoagload said that he never saw so many sure to win in a race before. He had seen them all at work and all went well. Nobody can guess the winner. Condition is going to tell in the race. Volante was not going to be a bad choice for for he aiready had two steadying races. As for Grover Cleveland, the race is too early in the season for him. He is a race horse but too high in fissh, and, withai, a little lame. Hanover is a grand colt, but he will have to run very fast to win. His \$20,000 stable companion, Sir Dixon, will not be called upon to soil his dainty feet. If Hanover cannot win the race there is probably nothing in the Brooklyn stables that can.

"Well," said Trainer Huggins, in charge of A. J. Casact's stable at Sheepshead Bay, ves.

race there is probably nothing in the Brooklyn stables that can.

'Well,'' said Trainer Huggins, in charge of A. J. Casset's stable at Sheepshead Bay, yesterday afternoon as he opened the door of the box-stall in which The Bard stood knee-deep in his litter of fresh straw, ''here's a horse that will start in the handicap to-morrow, rain or shine.'' Glancing at the dark clouds scudding across the sky, pressaging rain, Mr. Huggins continued: ''I'd rather we'd had a dry track. In that case we could pretty nearly win.''
